**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 3-4, 8, and 41, drawn to a structure comprising corner struts and side beams.

Group II, claim(s) 2, drawn to a structure comprising floor units.

Group III, claim(s) 5-7, drawn to a structure comprising side struts, side beams, and inner side beams.

Group IV, claim(s) 9-11, drawn to a structure comprising corner struts and upper side beams.

Group V, claim(s) 12-14, drawn to a structure comprising side struts, corner struts, and upper inner side beams.

Group VI, claim(s) 15-21, drawn to a structure comprising side wall units, side beams, and struts.

Group VII, claim(s) 23-24, drawn to a structure comprising floor units.

Group VIII, claim(s) 25-40, drawn to a structure comprising rectangular roof units and upper side beams.

2. The inventions listed as Groups I-VIII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the linking feature of beams and struts are well known in the art.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
